# Distribution boards

## Elegance series

ABB's E-series of distribution boards meet all the requirements of modern installations for domestic, commercial and industrial applications

### Construction

Blending aesthetics, functionality and safety, the E-series of ABB distribution boards are manufactured with high precision and high quality CRCA steel sheets. These distribution boards undergo a seven-tank phosphating process to ensure anti-rust conditioning, superior finish and lasting strength. Premier quality powder coating is applied using the latest techniques

### Colour

ABB's E-series of distribution boards is available in texture grey (RAL 7035)

### Installation

The E-series of ABB distribution boards are universal mounting Type, hence can be flush or wall mounted. These distribution boards are provided with top and bottom removable gland plates with adequate number of knock outs, which enable easy installation and connection of conduits of sizes up to 32mm diameter.

### Protection

E-series distribution boards offer three types of protection - IP 43 & IP 54 degree with a metal door and IP 30 degree without a door. The highest degree of attention has been paid to the safety aspect of the distribution boards, considering that they are installed in close proximity to people. An intermediate plate ensures total safety, as no live parts are exposed when the door is opened

# Distribution boards

## Elegance series – Features

As per IS 8623

Suitable for flush and surface mounting

Shrouded neutral bar & insulated copper busbar

Detachable pan assembly

Door earthing

Cement spill protector

Reversible door for IP 43 and IP 54 DB

Anti insertion marking

Gasket for protection

Colour shade – texture grey (RAL 7035)

Cement spill protector

Insulated busbar

Door earthing

Anti insertion marking

# Distribution boards

## Elegance series-SPN-E-SHC

Horizontal single phase consumer unit with provision for 2 pole (MCB / Isolator / RCD) incoming and single phase outgoing.

These distribution boards come with earth link, shrouded neutral link and tinned electrolytic copper insulated busbar. Top and bottom, removable gland plates with knockouts. Mounting of these boards can be flush or surface

Available in, IP 30 (without door)

IP 43 & IP 54 (with metal door)

IP 43 (Metal door with acrylic)

# Distribution boards

## Elegance series – vertical DB-E-SVTDB T3

Vertical three phase distribution board with provision for 4 pole MCCB (T-max/T3) up to 250A as incomer with three phase and single phase (TP/SP) MCB outgoing.

These distribution boards come with complete insulated busbar (tinned electrolytic copper) arrangement, shrouded neutral bar and earth bars.

Top and bottom removable gland plates with knockouts. Mounting of these boards can be flush or surface.

Available in, IP 30 (without door)

IP 43 (with metal door)

IP 54 (with metal door)
