Linear Lights

Linear Lights are especially designed direct view luminaires which come with anti-glare technology. These luminaires allow us to introduce a substantial wow factor within projects when effectively utilized through the application of Media Façade. They can help us create various dynamic effects, allowing us to bring a structure to life and help achieve the designer's or architect's vision for the project. They come in mono color, tunable white, RGB & RGBW solutions.

Linear Flex

Jaquar Linear Flex is a state-of-the-art luminaires solution that provides maximum flexibility. It is especially designed to overcome the challenges for the uneven surfaces of the building and is used for various lighting concepts such as Contouring and Media Façade. It provides a uniform dot-free and anti-glare direct view effect. The Linear flex solution is available in multiple CCT options like mono, tunable white, RGB and RGBW and can be controlled via DMX, DALI, Triac dimming or standard switching.

Linear Inground Lights

Building on the legacy of wallwashers, Jaquar has launched the linear inground series of luminaires. They can be ground recessed to completely conceal the luminaires and create a beautiful lighting illusion. A sealed and pressure tested glass cover protects the luminaires from both walkover impact and water damage. Offering highly customizable optics and color temperatures, Jaquar aims to provide best in class solutions. They are compatible with various digital lighting control protocols for flexibility in projects.

JQL-LIGL024W

Features

- Recessed luminaire is suitable for a wide range of wall washing, accent, surface grazing applications in architectural, hospitality and retail environments

- Multiple customisation options to illuminate interior walls, exterior facades and unique architectural details. Drive-over 4000 Kg at max 40 Km/h Designed to last in extremely harsh environments

- Intelligent dynamic, Tunable, White grazing; DMX and DALI controllable, easy to install with the integrated universal power supply and connect via combined power and data connectors

Ground Burials

Jaquar ground burials are designed to enhance architectures, they can be used in varied applications like column uplighter, tree uplighter, etc. Their glare-free design and construction ensure maximum visual comfort. A sealed and pressure tested glass cover protects the luminaires from both walkover impact and water damage. Optics provide best in class distribution from ultra narrow beam to wide beam options. They are compatible with various digital lighting control protocols for flexibility in projects.

COMPLETE LED LIGHTING SOLUTIONS

Flexi Wallwasher

Jaquar conceived the idea of flexible wallwasher solutions to provide maximum flexibility and assist designers and architects in overcoming challenges posed by standard luminaires in various projects. It is the perfect solution for uneven surfaces whilst ensuring high performance. Offering highly customizable optics and color temperatures, Jaquar aims to provide a very unique and distinctive solution for this application. These are fully compatible with advanced protocols such as DMX512, RDM & DALI.

Flexi Wallwasher

JQL-FWWL060W

Features

- The chain module pixel lights suit for all kinds of special-shaped lighting requirements

- Unique linked chain design, it can change the shape based on various needs

- Power supply is built in each module, can connect each other at any length

- CREE XPE light source, different beam angles available

- IP67, ideal for indoor and outdoor installation, widely used in landscape architecture like trees, rockery, garden, yards, hotel pillars and similar lighting projects

SPECIFICATIONS	
Power Consumption	3 W per module
Luminous Flux	70 Lm / W at 3000 K

Guardrail Lights

Jaquar guardrail lights and handrail lights are a unique product solution designed to be an integrated part of the rails. They come with multiple beam symmetric and asymmetric beam options and are designed with humanized anti-glare optics. They adopt the highest electrical safety parameters and work on low voltage DC with centralised power feeding.

JQL-HDRL002W

Features

- Unobtrusive appearance design
- Strong aviation aluminium housing
- Adopt the anti-theft design fixed by rotation
- Self-contained stainless steel elastic bracket
- Seamless splicing of light, with optical dark-free zone design
- Meets international standards DMX512 protocol

Trunking Lights

Jaquar trunking lights have a seamless body and invisible connector design for beautiful aesthetics and are designed to create an even and soothing lighting effect. Ensuring very high efficiency parameters of up to 150 Lm / W and anti-glare technology allows for UGR<19 compliance. The housing has been specially designed to allow for very effective heat dissipation given the 24 hour usage application. Push buttons provided on the fixtures are another unique feature which allows for easy and convenient installation and maintenance.

JQL-TRL035W

Features

- Robust design: tough body makes sure good heat dissipation, IP65, design, surface mounted and suspension mounted ,ensures fixtures to meet different lighting applications

- Best-in-class performance: 150 Lm / W at 4000K light output, UGR<19, glare-free

- Seamless connection: seamless body and invisible connector design creates even lighting effect

- Easy Maintenance: Push and Pull button on the fixture, easy and convenient installation and maintenance

Under Water Lights

Jaquar underwater lights are designed with high a quality 304/316 stainless steel housing which allows for longer life in both fresh water as well as salt water. Their superior anti-corrosion and anti-rust properties make them ideal for the water landscape projects. Luminaires have been designed with a high precision waterproof silicon ring to protect their IP68 structure. They are compatible with various digital lighting control protocols for flexibility in projects.

Chandeliers

There are a few bigger statements of luxury in an indoor space than a sparkling chandelier. Discover a grand centrepiece for your indoor space in Jaquar's range of chandeliers.

- Our chandeliers, a fusion of class and quality, are made with lead-free Spectra and Strass crystals of high-precision cut, clarity, colour, and shape, from some of the world's best crystal manufacturers.

- We use mainly brass in the frame of our chandeliers, which come with a 7 year to 10 year warranty on the plating – ranging from 24K Gold to Chrome, Antique Brass and Copper.

- With the fabrication and plating of chandeliers being done in-house, Jaquar is one of the leading brands of India with its own production facility for crystal chandeliers.

- Available in classic and contemporary styles, reflecting traditional grace or modern elegance, our chandeliers range from 3-head to 24-head designs, with suspended or ceiling-mounted options.

- In fact, apart from the extensive choice, Jaquar Lighting also offers a unique customisation option in Crystal chandeliers - you can redesign, mix and match, and even ask to increase or reduce the crystals used in the chandeliers you select.

But no matter which chandelier you choose from Jaquar Lighting, it'll definitely have the power to be the cynosure of all eyes in the room.

Tiered Candle Chandeliers

A tiered candle-chandelier like this one is the perfect way to accentuate a room's traditional elegance. Reminiscent of real candle chandeliers from many centuries ago, that were lowered, lit and then pulled up by rope, the unmasked light source allows the crystals underneath to sparkle with greater intensity.

Concealed Light Chandeliers

A complete creation in crystal, the opulence of chandeliers like these demand décor that's no less magnificent. Concealing the light source within allows the crystals to appear as if they are the light source themselves – a multitude of little suns scattering beautiful rays around the room.

Modern Chandeliers

Representing the evolution of chandeliers, rectilinear and curved forms of chandeliers question traditional outlines and pay tribute to the more functional forms seen in architecture of the 20th century. Ideal for interiors where modern lines and newer, man-made materials are chosen.

Ceiling lights are available in standalone, single tier, 2 tier and 3 tier variants with Chrome, White, or Rose Gold Finishes with Metal and Glass options. Our innovative range of LED wall lights are available in standalone, single head, 2 head and 3 head variants with matching chandeliers.

For enhancing the ambience of interiors, choose from our trendsetting table lamps that are available in Chrome, Glass, Wood and Metallic Finishes with fabric or PVC shades. Similar options are available in our Floor lamps too, which are distinctive and contemporary.

For use in moist environments like bathrooms, Jaquar Lighting's Aqua Lights feature a Chrome Finish and Ingress Protection (IP) 44 rating.

Unless otherwise specified, all Jaquar Lighting products are built with the flexibility to be compatible with not just LED lamps but CFL and GLS lamps too.

Smart Lights

The world of devices is getting smarter and so are Jaquar Lighting products.

For your daily lighting requirements, our in-house R&D has come up with several next generation products.

From a bulb which can be operated using Bluetooth and Wi-Fi, to an emergency bulb with in-built battery to stay lit during power cuts, and motion-sensing battens, downlights and panels which get switched on automatically as you approach.

All these products are designed to need minimal human touch to allow better hygiene, as well as provide ease of operation and save time, effort and energy.

FUTURE PRODUCT

Smart Pole

Next generation street light LED pole with multiple applications,
like:

- HI-DEF 360° camera for surveillance

- LED display board for traffic alert, public announcement, weather report and general advertising

- Electric vehicle charger

- Fully customized wi-fi

- Weather station, which can measure air temperature, noise, air humidity, pressure, wind speed and direction
