SIPRADI Training Center

Introduction

Sipradi Training center is aimed at strengthening skill requirement for Technicians, Drivers and Employees that creates good future with right attitudes, responsibilities and technical understanding of work.

Sipradi Training Center is established to offer a comprehensive portfolio of modern training and the learning solution to help and choose the right mix of training, understand where candidate's abilities stand today, and where we want them/they desire to be in the near future in the automobile and allied sector. Training is based on the current potentials of the trainees and future needs for that particular job.

Sipradi Training Center was established with the same faith in the year 2008. Since then, we have been providing high quality service with best technical knowledge to technicians, drivers and other stakeholders.

In the path to betterment of Sipradi Training Center; we have been adding world class equipment to enhance the capabilities of the training center. Currently, it is equipped with Driving Simulator and Torque Wrench Tester, which is one of a kind in Nepal. Along with this, training center is also equipped with "Knowledge Center" of MAK, BOSCH, EXIDE and these knowledge centers enable trainees to know technicalities of the related products used in the vehicle and its holistic view to care in their daily operations.

The center, established with a purpose of upgrading skill of Drivers, Technicians and Employees of STPL, is being operated and maintained by STPL itself. The training center trains Drivers for Heavy & Light Commercial Vehicles, Buses, Passenger Cars, Off-Road Vehicles, and also delivers other related technical training such as auto mechanic training, auto electrician training etc.

Besides, the training center provides training to new staffs/employees of SIPRADI and familiarizes them with the new working condition and environment. The center also assists in refreshing and sharpening technical capabilities of existing employees in their professional ground.

Recently Sipradi Training Center has acquired affiliation from CTEVT (Council for Technical Education and Vocational Training) for conducting Light Vehicle Mechanic Training Level 1, 2 and 3 and it is also certified by NSTB (Nepal Skill Testing Board) for competency assessment of Light Vehicle Mechanic Level 1, 2 and 3.
