Tubular Cable Lugs

Standard Type, With Inspection Hole
for Copper Conductors
Material: E-copper
Surface: Tin Plated

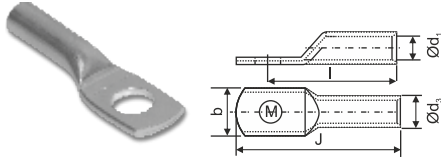

Con-Bolt mm ² -Φ	3D Cat.No.	d1	d3	b	J	Std Pkg	Price/ each ₹

Copper Split Bolt Connectors (Cold Formed)

Features

- **UL listed** for copper stranded wires only.
- Manufactured from high **strength**, high **conductivity** copper.
- Precision tooled **Cold Formed** threads.

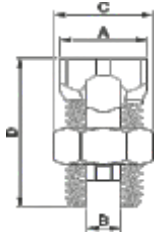

Application

- Suitable for **direct burial** application in earth and concrete.
- Splicing, tapping or terminating conductors in power and grounding electrical connection.

Standards

- Tested and Listed to **UL 486A, UL486B** requirements.
- **CSA C22.2 No.65** Listed
- **UL 467** Listed for **Grounding and Bonding**, this does not apply to 3D SB-1000.
- **ROHS** compliance.

COPPER STRIPS/BUS BARS

We offer high quality copper strips and bus bars. Copper Strips and plates are used in distinct industries because of their various unique characteristics, including electrical and thermal conductivity. They also have superior mechanical properties, malleability and formability. These copper strips and plates can be easily fabricated, welded or soldered. Our range of copper strip can be produced in different width and thickness as per the demand of the customers. Continuous strip-casting machines are used to produce long, weld-free coils of uniform composition and properties. On the other hand, our automatic electronic gauge-controls help maintain consistent thickness.

SIZE RANGE - BUSBARS	SIZE RANGE - COPPER STRIP
Width: 25mm-225mm	Width : 5mm to 100mm.
Thickness: 2mm-50mm	Thickness : 0.5mm to 10mm.

COPPER RODS

Copper rods are finished by cold drawing after casting. They are available in a comprehensive range of sizes with superb dimensional accuracy & finish.

Our copper rods are used for connectors, electrical motor components, electroplating, switchgear, ship building and power generating equipment.

COPPER RODS (ROUNDS)
Outer Ø from 8mm to 25mm. Available in straight lengths/coils

COPPER TUBES & PIPES.

We produce a wide range of seamless tubes in various shapes such as round, rectangular, square, hexagonal etc.

They are supplied in straight lengths. These tubes are used in general engineering, terminal-lug manufacturing and other electrical applications.

COPPER TUBE (ROUNDS)	COPPER TUBE (RECTANGULAR PROFILE)
Outer Ø 3mm to 52mm. Wall thickness 0.8 to 7mm depending on outer Ø of tubes.	Outer size 6mm to 50mm. W Wall thick thickness 1mm to 7mm.
