

MEP INTERNATIONAL PVT. LTD

COMPANY PROFILE 2025

“Intelligent MEP for a Sustainable Future”

MEP INTERNATIONAL PVT. LTD

INTRODUCTION

MEP International is a leading multidisciplinary design consultant, boasting extensive experience in MEPF (Mechanical, Electrical, Plumbing, and Firefighting) building solutions. We offer a comprehensive suite of services, spanning from Concept Design, Schematic Design, and Detail Design to Tender Document Preparation and Site Supervision. Specializing in expert Mechanical, Electrical, and Plumbing (MEP) services, MEP International also excels as an EPCC (Engineering, Procurement, Construction, and Commissioning) solutions provider, delivering a complete "Supply and Construction" model to clients. The company's foundation rests on a steadfast commitment to excellence, ensuring every project consistently meets the most stringent international standards for safety, sustainability, and performance.

At MEP International Pvt. Ltd., we're committed to integrating cutting-edge technology, energy-efficient systems, and cost-effective solutions to meet our clients' evolving needs. Our mission is clear: to enhance operational efficiency, reduce environmental impact, and deliver sustainable engineering solutions that stand the test of time. With a strong track record of successful projects and satisfied clients, we continue to drive progress in the MEP industry, ensuring innovation and excellence in everything we do.

ABOUT US

MEP International is a leading provider of Mechanical, Electrical, and Plumbing (MEP) engineering solutions. Built on a strong foundation of innovation, quality, and efficiency, the company delivers comprehensive MEP services for residential, commercial, industrial, and infrastructure projects. MEP International is committed to excellence,

and infrastructure projects. MEP International is committed to excellence, ensuring every project adheres to the highest international standards for safety, sustainability, and performance. With a team of skilled engineers, designers, and technicians, they provide end-to-end MEP solutions, covering everything from design and planning to installation, maintenance, and project management.

MEP International enhances its capabilities through key partnerships. MEPS Consultancy (Electrical), an Indian associate partner with over 25 years of experience, provides leading design, consulting, and execution services for the hospitality, residential, commercial, and industrial building sectors. M/s K.C.S is a leading building services. MEP Consultancy Firm for construction projects in India, provides clients with comprehensive range of Engineering Building Services for Plumbing, Firefighting, Sewage and water treatment system, Emizen Engineering, a B2B partner of Hitachi Johnson Controls, India, is crucial in the "Trade & Industry" sector, managing HVAC/R system design, drawings, and implementation. Furthermore, Techno Planet is a leading engineering firm specializing in integrated consultancy, design, and implementation services across ELV and ICT, security, cyber security, audio-video systems, and building management.

These collaborations collectively strengthen MEP International's ability to deliver comprehensive, reliable, and future-ready engineering solutions.

VISION & MISSION

VISION

Our vision is to be a leading innovative, sustainable, and high-quality MEP Consultancy and technology services provider, driving excellence in engineering and infrastructure development.

MISSION

To be a leading provider of innovative, sustainable, and high-quality MEP solutions, driving excellence in engineering and infrastructure development

- Providing comprehensive and sustainable MEP services tailored precisely to client needs.
- Utilizing cutting-edge technology to significantly enhance efficiency and performance.
- Ensuring timely project execution with an unwavering focus on quality and reliability.
- Promoting eco-friendly and energy-efficient engineering practices in all our endeavors.
- Building long-term relationships with our clients through trust, excellence, and professionalism.

GOALS & VALUES

GOALS

Our mission is to provide high-quality, sustainable, and efficient MEP solutions while ensuring customer satisfaction, technological innovation, and long-term industry leadership.

VALUES

The company operates under core values that include good governance, adherence to the law, integrity, respect, accountability, social responsibility, and an optimistic approach to every task.

OUR STRENGTHS

MEP International is a leader in the engineering design industry, providing EPCC (Engineering, Procurement, Construction, and Commissioning) solutions and technology services. We've partnered with MEPS Consultancy, India, leveraging over 25 years of experience in designing, consulting, and executing MEP works for diverse building construction sectors, including hospitality, residential, commercial, and industrial. Our network further extends through our association with Emizen Group, an authorized partner of Johnson Controls Hitachi (India), York (Singapore), and Fujitsu Business Technologies Asia Pacific (Hong Kong) for client computing devices. Techno Partner strengthens our offerings by providing integrated ELV (Extra-Low Voltage) and ICT (Information and Communication Technology) consulting services with in-house design expertise, all under one umbrella.

ABOUT OUR PARTNERS

MEP International is a leading engineering solutions provider specializing in Mechanical, Electrical, and Plumbing (MEP) services, with a strong foundation in innovation, quality, and efficiency to deliver comprehensive MEP solutions for residential, commercial, industrial, and infrastructure projects. The company's commitment to excellence ensures every project meets the highest international standards for safety, sustainability, and performance, achieved through an end-to-end approach encompassing design, planning, installation, maintenance, and project management, all while integrating cutting-edge technology, energy-efficient systems, and cost-effective solutions to enhance operational efficiency, reduce environmental impact, and deliver sustainable engineering solutions. Our capabilities are significantly enhanced by key partnerships, including MEPS Consultancy (Electrical), India, with over 25 years of experience in MEP design and EPCC solutions across diverse sectors.

Emizen group offers the best engineering solutions for a wide spectrum of customers in areas related to MEP (Heating Ventilation Air-Conditioning-HVAC/R, Electric and Plumbing with Firefighting) system providing a complete and comprehensive solution to the client carried out system analysis, design security engineering practices for building and after sales service by well trend professional from various disciplines committed to bring excellence in the corporate and public governance for successful.

M/s K.C.S is a leading building services MEP CONSULTANCY FIRM for construction projects in India, provides clients with comprehensive range of Engineering Building Services for PLUMBING, FIRE FIGHTING, SEWAGE AND WATER TREATMENT SYSTEM etc. This collaboration significantly enhances our cross-border capabilities, ensuring seamless project execution and consistent quality across all operations.

Techno Planet, a key partner, is a leading engineering firm specializing in ICT professional services and trading. They offer integrated consultancy, design, and implementation services across a wide range of areas, including ELV (Extra-Low Voltage) and ICT, Security, Cyber Security, Audio-Video Systems, Building Management, and more. With a multidisciplinary team and a brand-independent approach, Techno Planet delivers customized, future-ready solutions that align with our shared mission: to provide secure, efficient, and high-performance systems tailored precisely to each client's needs.

OUR SERVICES

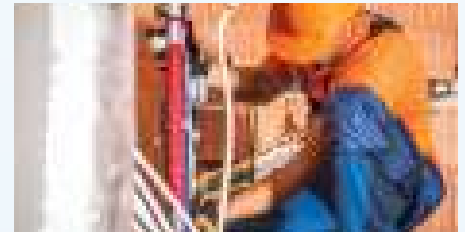

HVAC System

- HVAC system design, consulting, supplying equipments and installation
- Green energy management solutions
- Qualified and experienced professionals
- Respond to the needs of clients with the right solution.

Electrical

- Electrical system design, consulting, supplying equipments and installation
- Lighting solutions
- Power distribution
- Emergency power systems

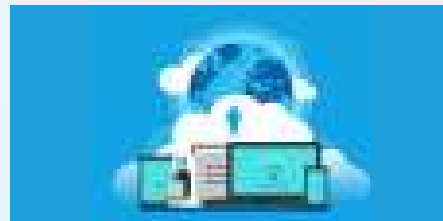

Plumbing

- Plumbing system design, consulting, supplying equipments and installation
- Water treatment solutions
- Fire suppression system
- Drain management

Firefighting

- Installation of fire life safety sprinkler systems, fire hydrants and fire suppression system for high-rise building and Industrial project.

ELV System

- Expert in ELV, IT & network Security including enterprise networks, wireless systems, and data centers, with turnkey deployments using top OEMs like Cisco, Fortinet, and Dell.

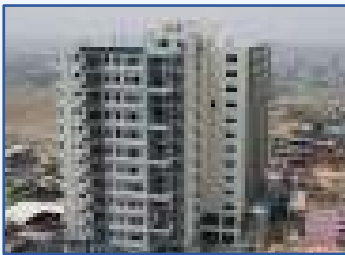

OUR EXECUTED PROJECTS

| Projects | Dusit Princess |
|------------------|---|
| Client | Hotel Lhasa International |
| Location | Lazimpat, Kathmandu, Nepal |
| Duration | 2018-2022 |
