

About Us

 bset.edu.np/about-us

Balaju School of Engineering and Technology(BSET) was established in 1962 A.D. with technical & financial assistance of the Swiss government and previously well known as Mechanical Training Center (MTC) and Balaju Technical Training Center (BTTC), with the aim of producing skilled industrial workforces to serve the growing needs of established industries in the country.

Balaju School of Engineering and Technology is one of the pioneering technical school of Council for Technical Education & Vocational Training (CTEVT). CTEVT act-1989 has mandated its programs and services.

Vision

BSET is the center of excellence to produce competent workforce in TVET.

Partnership

BSET also develops the relationship with some international partner organizations and has good relation with the international and national organizations.

Mision

Impart employable skills to produce skilled technical workforce for the nation and international labour market.
