Skill Development Training

Our country Nepal is a developing country with almost 7.5 percent of people under the poverty line. The major reason for this problem is unemployment. Taking that into account, Fast Nepal provides skill development training to create opportunities for youths. Our goal is

- To develop our nation
- Provide employment opportunities to youths
- To uplift the status of farmers in Nepal.

We help to modernize the agricultural sector of Nepal through several means so that every land becomes productive and agricultural gain is maximized. To empower the status of youths we provide different skill development training.
