## MARVEL SAFEDUCT uPVC ROUND CONDUIT PIPES

Fire is one of the major hazards to life and property, and electrical installations are perhaps one primary source of generation and propagation of fire. Protection of cables and raceways against fire is therefore an important and primary consideration while designing any type of building or construction.

Marvel Round Conduit Pipes ensure total protection to your wire & cables. They are manufactured from a specially formulated unplasticised polyvinyl chloride (uPVC) compound to meet the most stringent Indian and International standards. Manufactured with state of the art machines, Marvel SafeDuct assures 100% satisfaction for life time. The pipes are made of Extra Super High Impact materials which make them safe to use in harsh environments. The products are manufactured in accordance with IS: 9537 Part 3 for uPVC conduits.
